

Information sheet for parents for mass notification system.

Parents:

Our school district has entered into an agreement with ADT Select Link on a district wide mass notification system. This system will allow us to notify you via phone and e-mail on any school changes involving snow day, athletic events, school functions and the like. We need to get current home phone number, cell phone and e-mail information from you to make sure our alerts are timely and accurate.

Please fill out the information below and give back to the school. You have the option of filling out up to three phone numbers and two e-mail addresses. You do not have to fill out all the number and e-mails if you do not wish to have it sent to all of them.

Thank you very much. We look forward to being able to implement this system for your benefit.
